

# Research Study

**Dr. John McGeary is recruiting patients newly prescribed the following medication(s): clozapine, olanzapine, quetiapine, or risperidone. The study includes monitoring of potential side effects and a blood draw to collect DNA. Please note that the monitoring in this study is consistent with recommended medical practices for individuals prescribed these medications and participants will be compensated for their time.**

*• This will help research staff find eligible participants for the IRB approved study titled “Insulin Resistance and Weight Gain in Veterans Treated with Antipsychotic Medication Pilot Study.”*
